

Hello !! My name is Andrés, I'm from Argentine and I'm 40 years old.

I write to you to tell you my history.

I am in prison in Hong Kong since one year ago under the charge of Trafficking a dangerous drugs.

My history begins in Bolivia in July 2016, I moved there for work as a welder, after a 7 or 8 months there everything in my life collapse. I lose the job and start to pay less maintenance for my son to my

ex wife (they live in Bolivia) but she didn't understand so she made a complaint against me in the police station and few days later I received the

summons, so I went there and one officer in charge of my complaint gave me one week to pay my debt.

I was in a foreign country, without friends, looking for a new job, so I explain my situation to my

ex boss and he gave me a phone number from one friend of him who can help me to solve my problem.

I talk to him, and we meet each other in one coffee shop and he gave me the money to pay US\$ 3000,00

but I need to give back to him US\$ 5000,00.

I found a new job and start to pay my new debt as our agreement say.

After a few months this man Sebastian Rivero, called me and demand me to payment of all my debt.

in one week cause he need the money urgently, so I explain to him that that's gonna be impossible to me and

about our agreement but he didn't understand and gave me one week.

A few days later he called me and said me that he had a solution for my debt, make one trip to Hong Kong with

drugs.

I said him no way that's not an option for me I'm not that kind of person, and I received the most ugly answer that I receive ever. He threat me using my family cause he knew where my son lived and straight away he show me a picture of him.

So I was scare about my son, so kindly say yes and three days I was flying to Hong Kong with one kilo of cocaine in my stomach.

One time in the International Airport of Hong Kong I was arrested by the police. Magically they knew that I came with drugs.

Today, in one month I'll receive my sentence, that according to my lawyer gonna be between 7 to 9 years after all the discount from the court and the prison. My life now is finish, I lose everything, the trust of my family, my son, everything.

Why I tell you all this? because maybe you're in a similar situation and with this I help you to make the right choice, say no to this kind of people, stay away from them. Think in your family, your freedom. "SAY NO"

Help me to stop the trafficking of dangerous drugs to Hong Kong nor anywhere.

No more rules.
